**Subject:** current version of entire document and review comments table - checked back in  
**Attachments:** Additivity - Main Text and Appendix A Combined Comments 10-4-17.docx; Additivity - Main Text and Appendix A Comment Table Review Comments fro.....docx

Here is the latest version of the document, available to whomever wants it. I have made no changes to the review comments table, so this should be the latest version, also. I will be replacing Chapter 5 in its entirety when I finish my rewrite and will be making substantial changes to the appendix. Also, the appendix will now be B, seeing as how the one Marian is writing will appear first.
